Results-driven **Software Engineer** with expertise in **Python, Django, Flask, and the MERN stack (MongoDB, Express.js, React, Node.js)**, backed by a strong foundation in full-stack development. Skilled in building scalable web applications, designing efficient RESTful APIs, and delivering clean, maintainable code. Proficient in modern UI frameworks and styling solutions, including **Material UI, Ant Design, Radix UI, and Tailwind CSS**, to create intuitive and user-friendly interfaces. Possesses working knowledge of **Flutter and Dart** for cross-platform development. Adept at optimizing performance, solving complex technical challenges, and collaborating in agile environments to deliver high-quality, impactful software solutions.

EXPERIENCE /INTERNSHIP

Digitally AI Tech Solutions Private Limited,
Karaikudi— **MERN-STACK-DEVELOPER**

Jul 2025 – Aug 2025

- **E-Commerce Website Development** ☑️ Designed and developed a full-featured E-Commerce web application with product listings, user authentication, shopping cart management, and secure checkout functionality. Implemented responsive UI components using React.
- Built and integrated RESTful APIs for product management, order processing, and user accounts using Node.js and Express.js. Utilized MongoDB for efficient data storage, schema design, and handling real-time updates.

SKILLS

Frontend Development

- Languages: HTML, CSS, JavaScript,
- Frameworks & Libraries: React.js,

Backend Development

- Languages & Frameworks: Node.js, Express.js, Python
- APIs: RESTful APIs

Databases

- SQL, MongoDB

DevOps & Tools

- Git, GitHub

PROJECTS

- **Portfolio Website** – Developed a responsive portfolio using **React.js** and **Tailwind CSS**, deployed on **Firebase** to showcase skills and projects.
- **Weather Application** – Developed a responsive weather app using **React** and **Tailwind CSS**, integrating the **Open Weather API** to fetch and display real-time weather data, including humidity, temperature, and conditions for any search location.
